

Mr. Thompson -

2 Sept 99

Waste - your waste in my yard.

I live to the east of your waste, Brought
70 miles uphill from its source, so
I can Breathe it, day & night. Shame
on you.

Not only is it 90% of L.A. waste
you are allowing to be shipped (Trucked)
up here, you are wasting fuel, freeway
space an man hours to do it. Shame
on you.

An area, just North of LAX
is wide open, owned by L.A. & its
supervisors, sitting idly by, right in
the middle of those who generate all
this waste. Quit all this waste
and give it Back to Zev!

The A.V. Wined Festival Starts
Jan 1 and runs through Dec. 31. Stop
Harming our air & water with zevs
Shut.

Responses to Comments from Terry Noonan

- 31-1. Commenter is correct that some biosolids application could occur within the Antelope Valley, subject to the limitations imposed by the proposed GO.
- 31-2. See Response to Comment 34-1.
- 31-3. See Response to Comment 34-1.
- 31-4. See Response to Comment 34-1.
